A 2-year post-doctoral position is available at cE3c, Centre for Ecology, Evolution and Environmental Changes (http://ce3c.ciencias.ulisboa.pt/), at the laboratory of Sara Magalhães, within an ERC consolidator grant. The grant may be extended for an extra year.

The candidate is expected to work on ecological and evolutionary implications of the interaction between spider mites and plant defences.

We are seeking a candidate that is highly motivated, enjoys working in a group, knows (or will quickly learn) how to independently plan his/her experiments, respects the lab tidiness and appreciates placing his/her research in a general context.

To find out more about our research group please visit our website at https://mitesquad.weebly.com/

Applicants should send their CV to snmagalhaes@fc.ul.pt.

Starting date: flexible (early-mid 2020).

Place: Faculdade de Ciências da Universidade de Lisboa.
Project title: Competition under niche construction (COMPCON)
Funding: ERC Consolidator Grant, 2017-2022.
