At the Collaborative Research Center 1208 “Identity and Dynamics of Membrane Systems from Molecules to Cellular Functions” in the faculty of Mathematics & Natural Science of Heinrich Heine University Düsseldorf up to 36 posts as a

**Scientific Employee (m/f/d)**

(65 - 75%, pay grade 13 TV-L)

are to be occupied at the earliest possible date. The employment is initially limited until 31.12.2023 with an option for prolongation. It is a qualification position in the sense of the Act of Academic Fixed-Term Contract (Wissenschaftszeitvertragsgesetz-WissZeitVG), which is to promote the scientific qualification of the employee.

The CRC 1208, funded by the German Research Foundation, addresses fundamental questions about the identity and dynamics of membrane systems. These investigations are carried out on different unicellular and multicellular organisms. The CRC combines a unique range of structural, biochemical and cellular techniques and aims to determine the multidimensional interaction of the individual components of different membrane systems and the membrane as a unit.

The integrated Research Training Group „MB Train“ of the CRC 1208 offers a comprehensive, interdisciplinary doctoral program in the fields of cell biology, molecular simulation, biochemistry and biophysics. Doctoral researchers are accompanied by a supervision team with their central research project. They expand their theoretical and practical knowledge through methodological courses in modern laboratory techniques, seminars and symposia and take part in courses in key professional qualifications for early career planning.

We are looking for talented, motivated applicants with a completed scientific university education (M.Sc./M.A./Diploma/Magister) in the subject areas specified in the projects. A spoken and written command of the English language is desirable.

Detailed information on projects and their specific requirements in terms of subject area and methodological competencies, as well as the application process and our graduate school can be found at http://www.sfb1208.hhu.de/en.

The pay scale grouping will be, depending on the personal qualification of the applicant, up to pay grade 13 TV-L.

In principle, the employment can also take place part-time, if no compelling official reasons are opposed in an individual case.

Heinrich Heine University Düsseldorf aims at increasing the percentage of employed women. Applications from women will therefore be given preference in cases of equal aptitude, ability and professional achievements unless there are exceptional reasons for choosing another applicant. Applications from suitably qualified severely disabled persons or disabled persons regarded as being of equal status according to Book IX of the German Social Code (SGB – Soziales Gesetzbuch) are encouraged.

Your contact in case of questions is the CRC 1205 coordinator, Dr. Kruse, email: sfb1208_application@hhu.de.

Please submit your application documents according to the specifications on the website citing reference no. 166 T 19 – 3.1 until 03.02.2020 preferably by email (in an single PDF file to: sfb1208_application@hhu.de) or in writing to:

Heinrich Heine University Düsseldorf
Faculty of Mathematics & Natural Science
SFB 1208
Universitätsstr. 1
D-40225 Düsseldorf

Please do not submit application materials in folders and be sure to send copies only, as documents will not be returned (they will be destroyed after the selection procedure has been completed).
