**Postdoctoral Fellowship in Plant Molecular Biology**  
Korea research Institute of Bioscience & Biotechnology, Daejeon, South Korea  
*Application deadline: March 31, 2016*

**Position:** Korean Government Postdoctoral Fellowship, to begin between May 1 to August 31, 2016 (adjustable) for maximum 5 years contract

**Responsibilities:** To contribute to projects ‘Plant-microbe interactions in Arabidopsis’ and/or ‘Natural rubber biosynthesis processes’.

**Requirements:** Suitable candidates should be trained in basic techniques of plant molecular biology. Experience in plant-microbe interactions is a plus.

**Annual Salary:** approx. US$50,000 (in addition, airfare will be provided)

**Contact:** Stephen Beungtae Ryu, Ph.D., Professor  
Korea Research Institute of Bioscience & Biotechnology (KRIIBB)  
Daejeon, South Korea  
Telephone: (+82)10-4272-6540  
Email: sbryu@kribb.re.kr

**Documents:** To apply, please send a complete CV, names and email addresses of at least 2 references, and a brief statement of research accomplishments and future goals. Applications should be submitted by email to sbryu@kribb.re.kr. Review of applications will begin immediately.

**Deadline:** March 31, 2016
