POSTDOCTORAL RESEARCH ASSOCIATE JOB

VACANCY REF: 037088

HALLIDAY LAB, UNIVERSITY OF EDINBURGH
http://hallidaylab.bio.ed.ac.uk/

We are seeking an enthusiastic postdoctoral researcher to work on a BBSRC-funded project that seeks to understand how light signalling and carbon metabolism are coupled to growth and development in the model plant Arabidopsis. This exciting project builds directly on novel findings showing that light activated phytochrome sensors do not simply control growth through molecular signalling, as previously thought, they also control the availability of resources for growth.

For further information, please contact Professor Karen Halliday via: karen.halliday@ed.ac.uk

This post is full time and fixed term for 24 months, and is available from 1st October 2016

Closing Date: Thursday 22nd September 2016 at 5pm (GMT)
