Opening of Faculty Positions at the School of Life Sciences, CCNU

About US

Central China Normal University (CCNU) is located in Wuhan, China. It is a state key university directly under the Ministry of Education of the People’s Republic of China. It is highly recognized as an important base for cultivating brilliant talents for the country, and a superior training center for excellent teachers in higher learning institutions and high schools.

The School of Life Sciences has two departments: biological science and biotechnology. We have established international academic exchange and research collaboration programs with universities and research institutions in the United States, Britain, France, Germany, Japan and Canada. The school has set up a shared research platform with advanced facilities, including state-of-the-art instruments for high resolution liquid chromatography, laser confocal microscopy and flow cytometry. In recent years, the college has rapidly advanced in teaching, research and personnel training.

Since its establishment in the early 20th century, many professors from abroad joined the school and greatly contributed to the teaching and research at CCNU, a tradition that continues today. We warmly welcome you to join us, and together, we strive to seek truth and innovation, establish morality and cultivate talents for generations to come. We urgently need to recruit 6-10 outstanding talent faculty in the following fields.

Majors and research fields of the positions:

Neurobiology, plant physiology and molecular biology, plant molecular genetics, proteomics, microbial molecular biology, microbial ecology, and other fields related to life sciences.

Qualifications:

i. Have obtained doctor’s degrees in world well-known universities or research institutes. Have at least one-year working experience in overseas well-known universities or research institutes.

ii. Scientific research achievements should meet the qualifications of faculty in our school; various talent-recruiting programs at CCNU and the requirements for each type of talent plans can be found from the website http://hr.ccnu.edu.cn/info/1004/2998.htm.

iii. Applicants for professor positions should be under the age of 40, for associate or assistant professor positions under the age of 35, and for lecture positions under the age of 30.

Benefits & Supports

i. Competitive salaries and benefits among universities in Wuhan will be offered. In some special cases, agreement-based salaries can be negotiated.
ii. A special package of resettlement allowances and research start-up fund will be provided and are negotiable. For further information, you are welcome to contact us.

iii. Apartments for rental are available and rental allowances will be provided. High-quality education for children (from Kindergarten to High School) is available for the employees of CCNU.
