**Graduate research Assistant position at Texas Tech University**

A graduate research assistant position is available in the Plant & Soil Science department, Texas Tech University, Lubbock to work on plant cell wall biology research. We are looking for highly motivated graduate students interested in plant molecular biology/biochemistry.

Previous research experience in molecular biology, biochemistry and/or proteomics would be beneficial. Basic bioinformatics skills are required. We use Arabidopsis model system to understand the cell wall biosynthesis. Opportunities to work on crops such as cotton and sorghum are available.

Please submit a brief description of research experience, curriculum vitae, and the names and contact information of three references to: Dr. Venugopal Mendu (venugopal.mendu@ttu.edu). Please visit lab page for additional information: [http://www.depts.ttu.edu/pss/mendulab/](http://www.depts.ttu.edu/pss/mendulab/)
