Lecturer in Molecular Crop Science, University of Edinburgh, UK

We are looking for a colleague with the potential to become a world-class researcher and inspiring teacher, and who uses molecular approaches to address fundamental questions or develop technologies that are relevant to plant and crop sciences.

The lectureship is in the Institute of Molecular Plant Sciences at the University of Edinburgh, a community of 15 plant research groups within one of the UK's largest and highest-rated biology departments, offering excellent facilities and a stimulating environment for research and teaching. The post is full time and open-ended. For further details please see:
