Postdoctoral Associate - Purugganan Lab

New York University: NYU - Domestic: Faculty of Arts and Science (FAS): Biology and Genomics

Location Abu Dhabi, UAE

Open Date Apr 17, 2019

Deadline May 1, 2019 at 11:59 PM Eastern Time

Description

The Purugganan Laboratory has an opening for a Postdoctoral Associate to work on comparative genomics, genome evolution and evolutionary genomics of date palms at its New York University Abu Dhabi lab.

The position is based in the NYU Abu Dhabi Center for Genomics and Systems Biology, and will be part of a small but highly productive group. NYU Abu Dhabi has a thriving research group that also includes colleagues working on falcon genomics, human population genomics, amphibian evolution, as well as neuroscience, chemical genomics and systems biology.

The pay is very competitive, and includes a very generous housing, commuter and travel allowance. The position will be available starting 1 September 2019, and is an annual contract renewable for up to 3 years.

Qualifications

Candidates should have a Ph.D. with good bioinformatic and/or population genomic/comparative genomic analyses skills, a strong record of research productivity, and able to work semi-independently will be a good fit.

Application Instructions

Please upload a CV and cover letter through the link below.
