Post-doc position available in the Dinesh-Kumar lab at UC Davis

POST-DOCTORAL POSITION --
Plant-microbe interactions and Gene editing

Laboratory of Dinesh-Kumar
Department of Plant Biology and The Genome Center
University of California, Davis

A postdoctoral position is available immediately in the area of plant-microbe interactions and development of virus-based genome editing tools in plants in the laboratory of Dinesh-Kumar at University of California, Davis.

Applicants should have a Ph.D. with strong background in genetics, biochemistry, cell biology and molecular biology. Excellent oral and written communication skills are essential. Strong publication record is required.

Interested candidates should forward curriculum vitae and a cover letter describing research experience to spdineshkumar@ucdavis.edu
