Postdoctoral Researcher in Molecular Biology

We are recruiting for a postdoctoral scholar to join Dr. Adler Dillman's lab in the Department of Nematology at the University of California, Riverside (http://dillmanlab.org/). The position will be broadly focused on host-parasite interactions, with the applicant working on one of several new projects, depending on their expertise and background. Due to the nature of new projects in the lab, we are seeking a candidate with expertise or background in one of the following areas:

- Bioinformatic analysis with an emphasis on the analysis of RNA-seq datasets and/or genome annotation.
- Lipid biochemistry, protein-lipid interactions, or lipid biosynthetic pathways.
- Steroid hormone signaling, dafachronic acid signaling, ecdysone signaling.

Minimum Qualifications: Applicants should be within 3 years of having received their PhD, and must be able to perform independent research, have good written and verbal communication skills, and be highly self-motivated.

Postdoctoral salaries at UCR are two steps above the NIH NRSA scale. Salary will be commensurate with experience, and this position includes benefits. Initial duration will be for two years, but may be renewable depending on performance. The incumbent will be encouraged to participate in the development of promising projects for continued funding.

Flexible start date for this position, sometime between now and February 2021. Review of applications will commence immediately and proceed until position is filled. For full consideration, applicants should submit their complete applications as soon as possible.

To Apply: Send a cover letter, curriculum vitae, and contact information for three referees via email to adlerd@ucr.edu. Please also direct any questions or requests for further information to the above email address.

The University of California is an Equal Opportunity/Affirmative Action Employer with a strong institutional commitment to the achievement of excellence and diversity among its faculty and staff. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age, disability, protected veteran status, or any other characteristic protected by law.
