The Director of Central European Institute of Technology (CEITEC MU) opens a position

LABORATORY MANAGER

Description

The research group of Dr Hélène Robert Boisivon focuses on the effects of plant hormones during organogenesis in flowering plants, and how environmental cues influence the reproduction fitness in Arabidopsis thaliana and related crops. The research group of Dr Tomasz Nodzynski uses cell biology and biochemistry approaches to understand vesicle-dependent protein trafficking and auxin transport interplay in response to environmental signals.

You will assist us in the area of plant developmental and cellular biology as part of Hormonal Crosstalk in Plant Development Group and of Developmental and Cell Biology of Plants group of Genomics and Proteomics of Plant Systems Research Programme of CEITEC Masaryk University.

Your responsibilities as lab manager will include:
- Maintenance of the inventory of equipment and supplies
- Stocking of the laboratory in terms of consumables, plastic-ware, and glass-ware
- Preparation of laboratory orders
- Management of the lab material (washing, autoclaving, shelving)
- Enabling the strict safety procedures and safety checks
- Communication with other lab managers in the A26 building

Requirements:
- You have a minimum training with a Bachelor degree in Life Sciences
- You have a dedicated personality with good communication skills (English, Czech)
- You are well organized and able to work independently
- You are a reliable teammate

At CEITEC Masaryk University,
- We offer supports in learning and development
- We provide flexible working times, and benefits package (6 weeks of paid holiday, Meal tickets, MU canteens, Retirement contribution)
- We support an appreciative and encouraging work environment
- We are an equal opportunity employer
• We value diversity and promote a versatile working environment with the aim to support the best scientists

**Anticipated start date**: July 1st, 2019, negotiable

Are you interested to join a motivating environment in young, international teams? To apply for this position, send your application in one combined pdf (including CV, certificates and references) by email to recruitment@ceitec.muni.cz

**Electronic application deadline is**: June 1st, 2018 or until the position is filled

Please note that the position is initially for 12 months with possibility of extension. The position is full-time. We offer a minimum salary of CZK 25,000 gross/month, with possible bonus depending on education, qualification and work experience.

**Information about Brno, Czech Republic**

- The capital of South Moravian Region and the second largest city in the Czech Republic with a population of almost 400,000 people
- Modern, dynamic and fast growing centre of industry, trade, science, research and innovation with business incubators and centres of excellence in science
- A city of universities with more than 86,000 students
- More than 10,000 researchers; 2,200 IF publications/year; 600+ PhD graduates/year,
- 500 mil. EUR of R&D investment per year, more than 350 companies with in-house R&D,
- City of Gregor Mendel, the founder of genetics; the prestigious Mendel Lectures series takes place in Brno since 2003 (lectures of the world’s top scientists, including Nobel Prize winners),
- **Quality of life index in 2016**
