Scientific Editor Positions in Molecular Plant

Molecular Plant is looking for 1-2 Scientific Editors to join its editorial team!

Molecular Plant is an international journal publishing significant findings in plant biology, focusing broadly on cellular biology, physiology, biochemistry, molecular biology, genetics, development, plant-microbe interaction, genomics, bioinformatics, and molecular evolution. As one of the leading plant science journals, Molecular Plant is seeking 1-2 full-time, in-house scientific editors to join its editorial team. The Scientific Editors will be expected or trained to play roles in providing immediate and satisfactory supports to the Editor-in-Chief and Deputy Editor-in-Chief in all aspects of manuscript processing, which include but are not limited to the responsibilities listed below.

1. Assisting the Editor-in-Chief and Deputy Editor-in-Chief in evaluating/reviewing the submitted manuscripts.
2. Actively interacting with the outstanding scientists and inviting research highlights, reviews and research articles.
3. Writing academic news, preparing the advertise materials and promoting the journal globally in the plant biology community and involving in organizing the editorial board meeting.

The qualified candidates are expected to have or to be:

1. Ph.D. degree in plant science, genetics or other related subjects.
2. At least one first-author publication in the recognized scientific journals.
3. Good command of English and basic computer skills, and good communication skills with the scientists using English as the work language.
4. Broad scientific interests, the ability to critically think, and strong interest in the work of scientific editing.
5. Highly self motivated and strong sense of responsibility and collaboration.

A competitive salary and benefits will be provided, depending on the background and experiences, according to the policy of Shanghai Institutes for Biological Science/Shanghai Information Center for Life Sciences (SIBS/SICLS), Chinese Academy of Sciences. The successful applicant will work with the current members as a team in the Editorial Office within SIBS/SICLS campus located in Shanghai city, P.R. China.

Applicants interested in this position should send your application materials, including Curriculum Vitae and personal statement by email to mplant@sibs.ac.cn (subject: MP editor application). The positions are open until filled. More information about Molecular Plant could be found at http://www.cell.com/molecular-plant.
